Experienced and growth-driven Software Engineer with 9+ years of success in designing and leading scalable solutions across e-commerce, marketplace integration, and omni-channel systems. For the past 2.5 years, I've led a cross-functional engineering team at Sociolla, overseeing mission-critical flows including commerce engines, internal trackers, POS integration, and mobile APIs.

I'm passionate about fostering high-performing teams and aligning engineering excellence with business needs. Adept at microservice design, cloud architecture (AWS), CI/CD practices, and real-time monitoring, I thrive in environments where innovation, ownership, and collaboration are key.

PROFESSIONAL EXPERIENCE

Team Lead
Sociolla ⤴

November 2022 — Present   *Gurgaon*

Achievements/Tasks

- Lead a cross-functional team handling Sociolla's core e-commerce, POS, internal tracker system, and mobile commerce flows
- Architected and implemented solutions based on SOA and Microservices, enhancing scalability, resilience, and observability across platforms.
- Set up and managed CI/CD pipelines (Jenkins, Docker, Kubernetes, AWS) enabling faster and safer deployments.
- Built internal tools for tracking, reporting, and system visibility, including Telegram-integrated alerts for PRs and deployments.
- Drove improvements in team productivity and delivery speed through engineering best practices and peer collaboration.

SDE 3 (Full Stack Developer)
Sociolla ⤴

August 2020 - October 2022   *Gurgaon*

Achievements/Tasks

- Played a key role in a flexible Agile development environment, participating in a rapid release cycle.
- Designed and developed software solutions following SOP and Microservice architecture, adhering to industry best practices.
- Delivered scalable microservices that now handle millions of transactions monthly.

Application Engineer
Unicommerce eSolutions Pvt. Ltd. ⤴

May 2018 - May 2020   *Gurgaon*

Achievements/Tasks

- Worked on E-commerce Supply Chain solutions, responsible for integrating marketplaces, carts, logistics providers, accounting, and ERP software.
- Acted as an eCommerce application Front End/UI Developer, contributing to the definition, design, development, testing, and implementation of functionalities.
- Worked on Uniware, a unified commerce tool used by 1000+ sellers and brands in India.

Software Developer
Helios Web Services, Jaipur ⤴

September 2016 - May 2018   *Jaipur*

Achievements/Tasks

SKILLS

Programming Languages & Frameworks: JavaScript, Node.js, Laravel5, Java

Web Development: Vue.js, and React, Rest API, Ajax, Bootstrap, HTML / CSS

Cloud & DevOps: AWS (EC2, ECR, Athena, S3, VPC), Docker, Kubernetes and RabbitMQ

Monitoring & Logging: Prometheus, Grafana, New Relic, and Kibana

Databases: Mongo, PostgreSQL, Elastic and Redis

Version Control & Collaboration: Git, GitHub, Bitbiucket

Automation & Monitoring: Telegram API, Grafana

CI/CD Tools: Jenkins

PROJECTS

Sociolla (08/2020 — Present)

- Led the development of core e-commerce modules including order management, POS integration, and mobile API systems. Improved platform scalability and aligned engineering efforts with business growth.
- Designing and developing the software using SOP and Micro service Architecture, principles and patterns.
- Managing Omni Channel, POS, Mobile APIs and Internal Tracker (Commerce Flow) team
- Implemented CI/CD pipelines with Jenkins in a private subnet, utilizing Docker, Kubernetes, and AWS services (EC2, ECR, S3, Route53, Athena, etc), and integrated Telegram alerts to notify developers of deployments with PR and commit details.

Shopify (12/2019 — 04/2020)

- Developed a web app to capture leads and sellers from Shopify.

UniWeb (05/2018 — 04/2020)

- Served as a UI Developer for an internal application, utilizing JavaScript and Angular for processing JSON and XML data.

Uniware (05/2018 — 04/2020)

- Integrated 30+ external platforms (marketplaces, carts, logistics, ERP systems) using API-driven microservices to streamline e-commerce operations for thousands of businesses.

- Developed Angular.js dashboards and APIs for Thinglogix, an IoT-based smart device platform.
- Worked on frontend/backend modules including data aggregation, alert systems, and configuration panels.

Web Developer
Mr. P Mediaworks, Jaipur ⬈

July 2015 - September 2016   *Jaipur*

Achievements/Tasks

- Developed CMS websites and admin panels for retail, education, and content clients.
- Coordinated with clients for UI/UX feedback, design-to-code delivery, and post-launch support.

EDUCATION

BACHELOR OF TECHNOLOGY
RAJASTHAN TECHNICAL UNIVERSITY, KOTA

June 2011 - July 2015   *Completed B.Tech with honors*

Courses

- Computer Science

SENIOR SECONDARY
GOVT. SR.SEC.SCHOOL, SIROHI

June 2009 - June 2011   *Completed Sr. Sec. With 69.08%*

UniScript (05/2018 — 04/2020)
- Created automation scripts that simplified internal tool operations. Supported both MongoDB and MySQL-based workflows, reducing manual intervention in daily processes.

Foundry (09/2016 — 05/2018)
- Built interactive features and dashboard UIs using AngularJS, CSS, and jQuery for the Thinglogix platform. Focused on improving UX through animation and validation layers.

Docto (07/2015 — 09/2016)
- Collaborated with cross-functional teams to design and implement a healthcare platform. Delivered key business features with a focus on performance and maintainability.
